

WORKSHOPS / FESTIVAL

Château de Malérargues, Roy Hart Centre, Southern France

An ideal setting for an international gathering combining artistic practices with cultural studies: workshops, laboratories and performances, lectures on mythology, music, the voice, plus debates, master classes.

The 2008 theme : **Scheherazade, and her voice today.**

"Scheherazade is described not only as beautiful, charming and witty, but also as having read all the great books. Her telling of the stories in the erotically charged, life or death context of the Arabian Nights is therefore *knowingly fantastic*. Hers is one of the greatest voice performances of all time."
